REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The 2012/2013 school year at Cheraw Intermediate School (CIS) was an exciting year for the students. It was filled with events and activities to develop their minds, bodies, and character. They had the opportunity to participate in various learning opportunities involving reading, math, science, and social studies, the arts, service projects, and extra-curricular events. This variety of experiences not only helped the students learn important concepts and skills, but also life lessons.

The students' accomplishments included both academic and artistic recognition. We had 11 newly identified students qualify for ALPHA, the gifted and talented program, and 48 fourth and fifth grade students inducted into the National Elementary Honor Society. In addition to academic excellence, our students were also successful in the arts. Brishana Jackson won the Superintendent's Art Award for all the elementary students from across the district. We were so proud of these endeavors.

The CIS school report card rating was a "B" (85.6). Even though we received a "B" rating, we were still identified as a "focus" school. This meant that the average of the achievement gaps between our students sub-groups' scores on the PASS test were significantly large. From our research, we learned that instead of targeting certain groups, we needed to focus on effective instruction. Effective instruction helps all students benefit and show growth with the lowest students experiencing the most growth; and, consequently, reducing the achievement gap. With research to support us, our teachers were involved in extensive professional development in "best practices" for reading and math. In reading, we continued to emphasize reading stamina, fluency, and comprehension and implemented a folder system to closely monitor student progress and to improve instruction for individual students. Our math teachers worked with the math coach to implement "Math Talk" and to focus on teaching skills using the conceptual approach and manipulatives. The primary purpose of these math strategies was to increase our students' understanding and number sense.

Becoming an Arts in Basic Curriculum (ABC) site again was great for our students and school. Beyond instruction in the art and music classrooms, our students went to dance classes and had the opportunity to participate in various art clubs like chorus, art, guitar, steel drums, and dance. The chorus, under the direction of Mr. Davis and Ms. Powers, worked with the Baillie Players, a professional touring theatre company on the South Carolina artist in residency roster, to present a musical production of Peter Pan. The art departments also worked together to have a special arts program in the spring, but the most exciting art event of the year was the Follies. With over 300 children participating in this single event and nearly 400 parents and friends in the audience, this was an excellent example of how the arts can bring a school and community together.

As we celebrate these accomplishments, we acknowledge the dedication and contributions of our students, staff, parents, community members, and business partners and look forward to continued success.
